Chad Padd refueling bib protects boat and environment

April 29th, 2010 · by **Tim Flanagan, Managing Editor**

Hey, this isn't a bad idea! I'd be willing to give these a try. On with the press release...

Keeping diesel, gasoline and oil from damaging a vessel's surfaces and polluting waterways is now incredibly simple. The new, patented [Chadd Padd®](#) enables boat owners to be proactive, not just reactive. As a multi-purpose spill response solution, this reusable mat catches and contains fuel before it becomes a problem.

Providing 10" x 10" of fuel absorbing power, the waterproof Chadd Padd is anti-static treated and can hold up to 4.5 oz. of petroleum products. Made of the same material marinas are required to have for Spill Prevention, Control and Countermeasure (SPCC) requirements, the effective pad saves owners fines and the hassle of clean up.

The Chadd Padd can be used multiple times for a variety of applications. With a perforated, partial hole design, it accommodates most filler ports for refueling or adding oil. The pad can also be employed as a drip mat, in the bilge before pump-out or when working with hydraulic fluid. It's even disposable, in accordance with applicable regulations.

The economical Chadd Padd has a suggested retail price of just \$9.95 for a convenient 6-pack, while a roll of 36 pads is \$34.95. Enter promo code EZFUEL8 at www.chaddpadd.com to save 10%. Larger sizes, greater quantities, dispensers, Wind Chocks and other accessories are also available.

Cool device. We've been using the Davis No Spill over the vent to prevent any spills that way. http://www.amazon.com/dp/B00144CQMQ/ref=asc_df_B00144CQMQ1100597?tag=the004-20&creative=380333&creativeASIN=B00144CQMQ&linkCode=asn
